**Description of Classes & Clinics**

<b>Intro to PB Virtual Classroom</b>	<b>Introduction to Pickleball:</b> A virtual classroom is available at pickleballcommunity.com. Select Instructional Program and then New to Pickleball. <b>This is required viewing prior to attending Intro to PB Part One.</b>
<b>Intro to PB Part One</b>	<b>Prerequisite is Virtual Classroom:</b> Students will learn the physical demands of the game, as well as balance, footwork, and movement. Through eye-hand coordination drills & paddle drills they will learn paddle & ball interaction. Learning basic serves, ground strokes and dinks will prepare them to play. Instructors will advise students when they are ready to move on to Beginner Mentored Play.
<b>Beginner Mentored Play (BMP)</b>	<b>Prerequisite is Intro to PB Part One:</b> Students will attend five BMP sessions before moving onto Intro to PB Part Two, unless advised by the BMP Mentor to advance without attending 5 BMP sessions.
<b>Intro to PB Part Two</b>	<b>Prerequisite is both Intro to PB Part One and the BMP series:</b> Students will be taught how to practice and drill on their own through a series of drills. Focusing on the strokes learned in Part One, the students will dink, serve, and hit both forehand and backhand ground strokes. Some students, with advanced skills, may be taught additional strokes. Instructors will advise students when they are ready to move on to Skills Clinics.
<b>Skills Clinics</b>	
Residents who have completed the Intro to PB courses and those residents who are trained elsewhere and meet the standards of a 3.0 player as defined on the pickleballcommunity.com website may sign up for these clinics. They must be taken in order and receive their instructor's recommendation to proceed to the Strategy Play Concepts clinic. Residents that have a 3.5 or higher rating may sign up for Strategy Play Concepts without taking Non Volley Zone or Full Court Concepts classes.	
<b>Skills Clinic</b>	<p><b>1.Non Volley Zone Concepts:</b> Development techniques to improve Non-Volley Zone shots using a games-based drill and play format. Instruction on creating open space, ball pace, moving opponents, ideal strike zone, paddle angles, and ball pathways to achieve a variety of shots for successful play.</p> <p><b>2.Full Court Concepts:</b> Teaching the deep forehand and backhand ground strokes needed in the serve and return of serve. Focus on transitioning to the non-volley zone using the drop-shot via games-based drills and play.</p> <p><b>3.Strategy Play Concepts:</b> Offered October- April only. Using the Non-Volley Zone and Full Court techniques we will next incorporate shot selection, ball placement, player positioning and smart court strategies into your game. <u>You must complete both Non-volley Zone and Full Court Concepts training with a recommendation from both instructors before signing up for the Strategy Play Concepts Clinic.</u></p>

At all levels of instruction, we recommend that students practice what they have learned. Look in the Recreation & Parks Publication or check the schedule above for Beginner Play. This court time is designed for beginner players to develop their game with players at a similar level.
