In addition, said Owner is responsible for any damage that may be caused to any said improvements, including landscaping, should access to the easement area be necessary by any party having rights to the easement area.

### ***Home, Courtyard Villa, Patio Villa***

Section 373.185, Florida Statute provides: A deed restriction or covenant may not prohibit or be enforced to prohibit any property owner from implementing Florida-friendly landscaping on his or her land. (Effective 7/1/09) Florida-friendly landscaping refers to the utilization of drought tolerant “plants”. It does not mean that sod may be replaced with rocks, decorative stone, pine straw, mulch, pine bark or similar non-plant material; however, those non-plant materials may be used as an accent around plantings in designated approved landscaping beds.

1. For all requests seeking to replace sod with Florida-friendly plantings, said plantings shall constitute “ground cover” providing full ground coverage to maintain “a lawn appearance” in keeping with the aesthetics of the community. “Ground cover” plantings are those Florida-friendly plantings that grow low to the ground providing a permanent covering. Ground cover shall be fast growing, appropriate to the region and have a mature height one (1) foot or less. Full ground coverage (i.e. providing a “lawn appearance”) shall be achieved within eight (8) months of the ARC Application Form’s expiration date. The intent is to permit sufficient time for the plants to reach their mature spread. Mulch may be utilized in the interim period between plant installation and mature spread. After the time period identified herein, mulch shall not be visible as the ground coverage shall have filled in the spacing between plantings providing a “lawn appearance.” The Florida-Friendly Landscaping Guide to Plant Selection and Landscape Design provided by the University of Florida, IFAS Extension can be used as a guideline when approving Florida- friendly sod replacements. The following are some examples of acceptable Florida-friendly ground covers: Buglewood, Perennial Peanut, Blue Daze, Algeria Ivy, English Ivy, Twin Flower, Oblongleaf Snakeherb, Creeping Juniper, Horizontal Juniper, Sunshine Mimosa, Mondo Grass, Dwarf Lilyturf, Dwarf Liriope, Turkey Tangle Fogfruit and Capeweed.

5. Property owner is liable for any resulting blockage, interruption, or redirection of existing drainage flow, any additional drainage flow or any type of easement encroachment(s).

- Allee Elm

- Winged Elm
- Red Maple (used in The Villages but does not do well in some areas due to poor soil or dry conditions)
