**PETITION TO EXPAND THE BOUNDARIES OF
VILLAGE CENTER COMMUNITY DEVELOPMENT DISTRICT
BY ADDING CERTAIN LANDS
PURSUANT TO FLORIDA STATUTES 190.046**

Petitioner, Village Center Community Development District, a Community Development District duly established by an ordinance of the Town of Lady Lake, Florida, pursuant to the powers set forth in Chapter 190, Florida Statutes, petitions the Town Commission of the Town of Lady Lake, Florida (hereinafter referred to as "Town"), pursuant to the Uniform Community Development District Act of 1980, Chapter 190, Florida Statutes, to adopt an ordinance amending the ordinance heretofore adopted establishing the Village Center Community Development District (hereinafter referred to as the "District") by adding certain lands to the District:

1. Petitioner is a Community Development District duly established by an ordinance of the Town, pursuant to the powers set forth in Chapter 190, Florida Statutes, with its principal place of business at 3231 Wedgewood Lane, The Villages, Florida 32162.

2. The land area within the District after expanding the District boundaries as requested would comprise approximately 166.82 acres. A legal description and map showing the location of the land area in the District and its location is attached as Exhibit "1", and lies within the Town of Lady Lake, Lake County, Florida. A legal description of the external boundaries of the District as it exists today is shown as Exhibit "2" attached hereto. Exhibit "3" is a map and legal description of the area which Petitioner proposes to add to the District. Exhibit "4" lists the names and addresses of real property owners within the external boundaries of the District which are to be added to the District. There should be a positive impact of the expanded District on the real property to be included in the District, since the area will be served by water and sewer services provided by the District and drainage and water management facilities which will be operated and maintained by District. Attached as Exhibit "5" is documentation constituting written consent to the addition of the parcels requested hereby to be included in the District by the owner thereof.

3. The five persons currently serving as the members of the Board of Supervisors of the District who shall serve in that office until replaced are named in Exhibit "6" attached hereto.

4. It is proposed to continue with the name "Village Center Community Development District."

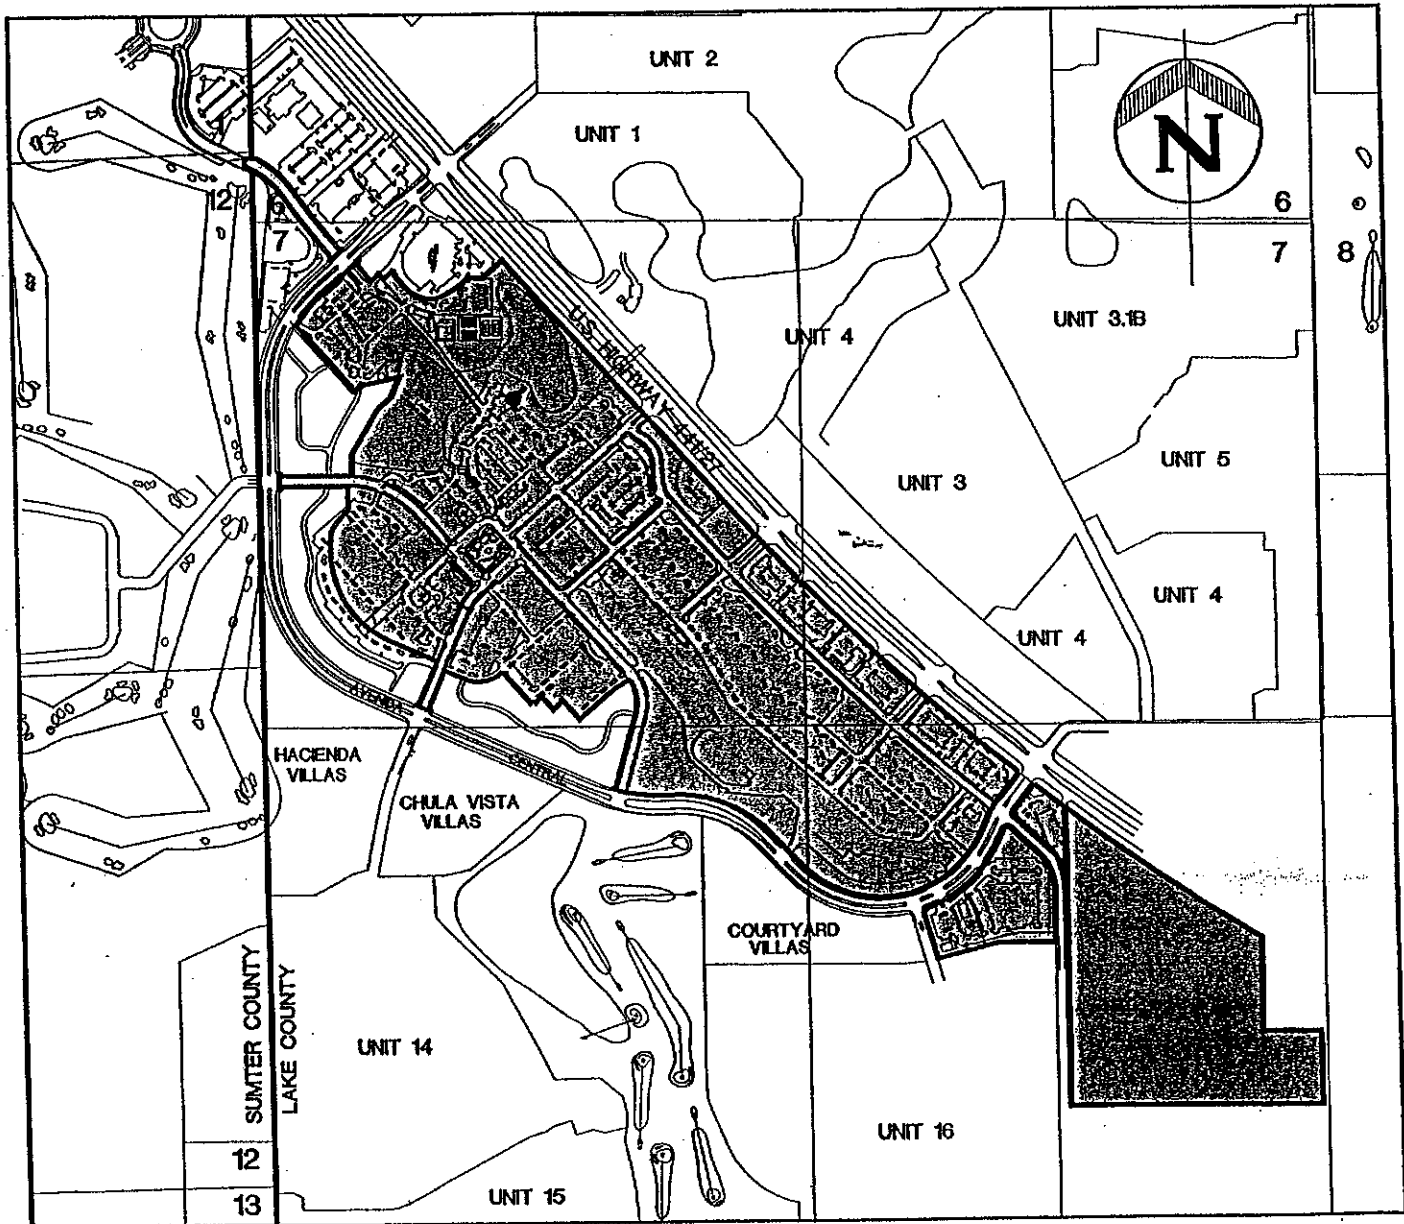

5. A map of the District as proposed to be expanded showing current major trunk water mains and sewer interceptors and outfalls is attached as Exhibit "7".

6. District services proposed to be furnished consist of water and sewer services and drainage and water management facilities.

7. All the property proposed to be included in the District is designated CPC, HC or urban expansion, pursuant to the approved development plan of the Tri-County Villages Development of Regional Impact Development Order, and under the Lady Lake and Lake County Land Use Element and Future Land Use Map attached as Exhibit "8" and "9".

STATEMENT OF ESTIMATED REGULATORY COSTS

STATEMENT OF ESTIMATED REGULATORY COSTS VILLAGE CENTER COMMUNITY DEVELOPMENT DISTRICT

1.0 Introduction

1.1 Purpose and Scope

This statement of estimated regulatory costs ("SERC") supports the petition to amend the boundaries of the Village Center Community Development District ("District"). The petition proposes annexing 32.42 acres of land ("Annexation Parcel") for use as a commercial center. The District proposes to provide infrastructure and community services to this area in the District as described more fully below.

The limitations on the scope of this SERC are explicitly set out in Section 190.002(2)(d), F.S. (governing District formation or alteration) as follows:

"That the process of establishing such a district pursuant to uniform general law shall be fair and based only on factors material to managing and financing the service delivery function of the district, so that any matter concerning permitting or planning of the development is not material or relevant (emphasis added)."

1.2 Overview of the Annexation Parcel

The Annexation Parcel consists of just over 30 acres of land adjacent to the District. The landowner plans a commercial center for the area. The District has operated successfully for many years providing community facilities and services. The District is one of the family of eight "Villages" communities under development by the Villages of Lake-Sumter, Inc. (the master developer of the Villages).

1.3 Requirements for Statement of Estimated Regulatory Costs

Section 120.541(2), F.S. (2002), defines the elements a statement of estimated regulatory costs must contain:

"(a) A good faith estimate of the number of individuals and entities likely to be required to comply with the rule, together with a general description of the types of individuals likely to be affected by the rule.

(b) A good faith estimate of the cost to the agency, and to any other state and local government entities, of implementing and enforcing the proposed rule, and any anticipated effect on state and local revenues.

Since the District already exists and is in good standing with the State, there will be no additional costs to various State entities to implement and enforce the proposed ordinance.

Lake County

Lake County will incur costs reviewing the petition for the proposed annexation and its supporting exhibits. In addition, the County will hold a public hearing to discuss the petition and to take public input. These activities will absorb staff time and time of the County Commission. However, these costs to the county are very modest for the following reasons. First, the review of this petition to amend the boundaries of the District does not include an analysis of the development itself. Second, the petition itself provides much of the information needed for a staff review. Third, local governments already possess the staff needed to conduct the review without the need for new staff. Fourth, no capital costs are involved in the review. Finally, local governments routinely processes similar petitions for land use and zoning changes that are far more complex than is the petition to amend the boundaries of the District. Finally, the filing fee will offset these costs.

There are no annual costs to the County if the petition is approved. The District already exists, and the proposed boundary change will not affect County costs in any way.

3.2 Impact on State and Local Revenues

Adoption of the proposed ordinance will have no negative impact on State or local revenues. The District is an independent unit of local government. It is designed to provide community facilities and services to serve the development. It has its own sources of revenue. No State or local subsidies are required or expected. The District already exists, and it has performed well with no impact on State or local revenues.

In this regard it is important to note that any debt obligations incurred by the District to construct its infrastructure, or for any other reason, are not debts of the State of Florida or any unit of local government. By State law debts of the District are strictly its own responsibility.

Real estate markets are quite efficient, because buyers and renters evaluate all of the costs and benefits associated with various alternative locations. Therefore, market forces preclude developers from marking up the prices of their products beyond what the competition allows. To remain competitive the operations and maintenance charges must also be in line with the competition.

Furthermore, locating in the District by new residents is completely voluntary. So, ultimately, all owners and users of the affected property choose to accept the District's costs in tradeoff for the benefits that the District provides.

The District is an alternative means to finance necessary community services. District financing is no more expensive, and often less expensive, than the alternatives of a municipal service taxing unit (MSTU), a neighborhood association, County provision (directly or via a dependent special district), or through developer-bank loans.

5.0 An analysis of the impact on small businesses as defined by Section 288.703, F.S., and an analysis of the impact on small counties and small cities as defined by Section 120.52, F.S.

There will be no impact on small businesses because of the formation of the proposed District. If anything, the impact may be positive. This is because the District must competitively bid certain of its contracts. This affords small businesses the opportunity to bid on District work.

Chapter 120.52, F.S. defines a small county or small city on the basis of their unincorporated population according to the most recently decennial census (in this case for 2000). The threshold for a small county is 75,000 and for a small city is 10,000.

The Annexation Parcel is located in Lake County. According to the latest Census date, the 2000 Census, the County has a population in excess of 100,000. Therefore, the proposed Annexation Parcel and the District are not located in a County defined as "small" according to Section 120.52, F.S.

6.0 Any additional useful information.

The analysis provided above is based on a straightforward application of economic theory, especially as it relates to tracking the incidence of regulatory costs and benefits. Inputs were received from the Developer's Engineer and other professionals associated with the Developer.

**PETITION TO EXPAND THE BOUNDARIES OF
VILLAGE CENTER COMMUNITY DEVELOPMENT DISTRICT
BY ADDING CERTAIN LANDS
PURSUANT TO FLORIDA STATUTES 190.046**

Petitioner, Village Center Community Development District, a Community Development District duly established by an ordinance of the Town of Lady Lake, Florida, pursuant to the powers set forth in Chapter 190, Florida Statutes, petitions the Town Commission of the Town of Lady Lake, Florida (hereinafter referred to as "Town"), pursuant to the Uniform Community Development District Act of 1980, Chapter 190, Florida Statutes, to adopt an ordinance amending the ordinance heretofore adopted establishing the Village Center Community Development District (hereinafter referred to as the "District") by adding certain lands to the District:

1. Petitioner is a Community Development District duly established by an ordinance of the Town, pursuant to the powers set forth in Chapter 190, Florida Statutes, with its principal place of business at 3231 Wedgewood Lane, The Villages, Florida 32162.

2. The land area within the District after expanding the District boundaries as requested would comprise approximately 166.82 acres. A legal description and map showing the location of the land area in the District and its location is attached as Exhibit "1", and lies within the Town of Lady Lake, Lake County, Florida. A legal description of the external boundaries of the District as it exists today is shown as Exhibit "2" attached hereto. Exhibit "3" is a map and legal description of the area which Petitioner proposes to add to the District. Exhibit "4" lists the names and addresses of real property owners within the external boundaries of the District which are to be added to the District. There should be a positive impact of the expanded District on the real property to be included in the District, since the area will be served by water and sewer services provided by the District and drainage and water management facilities which will be operated and maintained by District. Attached as Exhibit "5" is documentation constituting written consent to the addition of the parcels requested hereby to be included in the District by the owner thereof.

3. The five persons currently serving as the members of the Board of Supervisors of the District who shall serve in that office until replaced are named in Exhibit "6" attached hereto.

4. It is proposed to continue with the name "Village Center Community Development District."

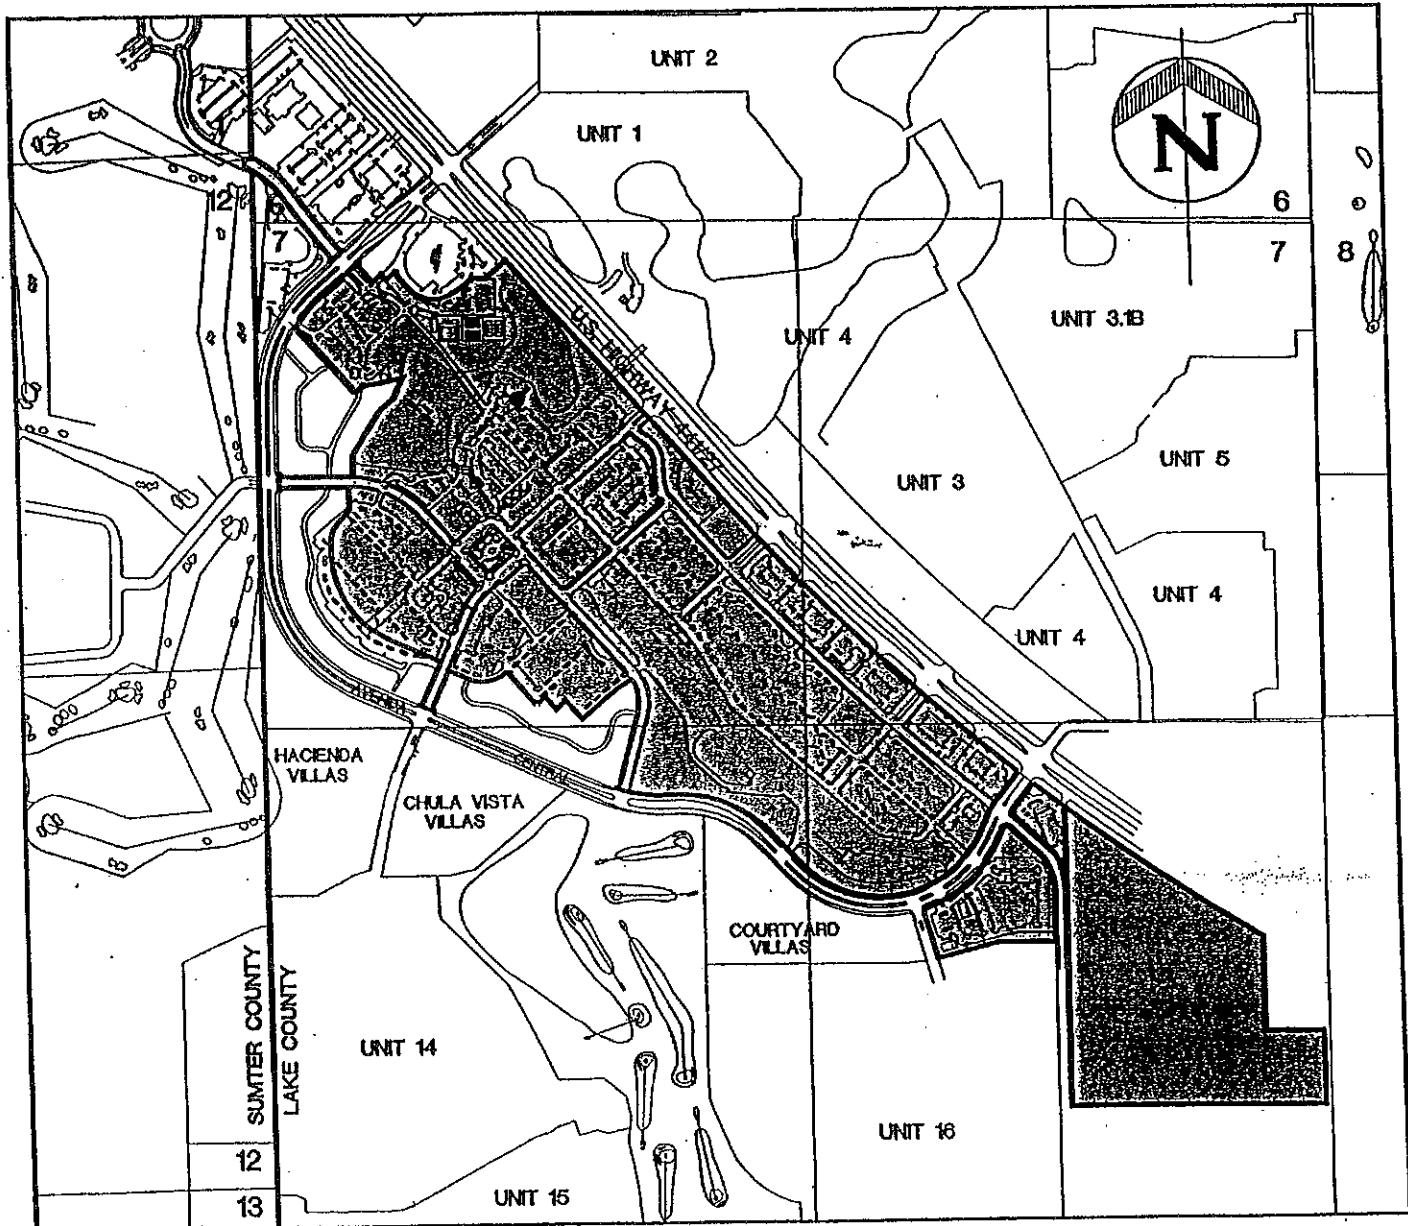

5. A map of the District as proposed to be expanded showing current major trunk water mains and sewer interceptors and outfalls is attached as Exhibit "7".

6. District services proposed to be furnished consist of water and sewer services and drainage and water management facilities.

7. All the property proposed to be included in the District is designated CPC, HC or urban expansion, pursuant to the approved development plan of the Tri-County Villages Development of Regional Impact Development Order, and under the Lady Lake and Lake County Land Use Element and Future Land Use Map attached as Exhibit "8" and "9".

STATEMENT OF ESTIMATED REGULATORY COSTS

STATEMENT OF ESTIMATED REGULATORY COSTS VILLAGE CENTER COMMUNITY DEVELOPMENT DISTRICT

1.0 Introduction

1.1 Purpose and Scope

This statement of estimated regulatory costs ("SERC") supports the petition to amend the boundaries of the Village Center Community Development District ("District"). The petition proposes annexing 32.42 acres of land ("Annexation Parcel") for use as a commercial center. The District proposes to provide infrastructure and community services to this area in the District as described more fully below.

The limitations on the scope of this SERC are explicitly set out in Section 190.002(2)(d), F.S. (governing District formation or alteration) as follows:

"That the process of establishing such a district pursuant to uniform general law shall be fair and based only on factors material to managing and financing the service delivery function of the district, so that any matter concerning permitting or planning of the development is not material or relevant (emphasis added)."

1.2 Overview of the Annexation Parcel

The Annexation Parcel consists of just over 30 acres of land adjacent to the District. The landowner plans a commercial center for the area. The District has operated successfully for many years providing community facilities and services. The District is one of the family of eight "Villages" communities under development by the Villages of Lake-Sumter, Inc. (the master developer of the Villages).

1.3 Requirements for Statement of Estimated Regulatory Costs

Section 120.541(2), F.S. (2002), defines the elements a statement of estimated regulatory costs must contain:

"(a) A good faith estimate of the number of individuals and entities likely to be required to comply with the rule, together with a general description of the types of individuals likely to be affected by the rule.

(b) A good faith estimate of the cost to the agency, and to any other state and local government entities, of implementing and enforcing the proposed rule, and any anticipated effect on state and local revenues.

Since the District already exists and is in good standing with the State, there will be no additional costs to various State entities to implement and enforce the proposed ordinance.

Lake County

Lake County will incur costs reviewing the petition for the proposed annexation and its supporting exhibits. In addition, the County will hold a public hearing to discuss the petition and to take public input. These activities will absorb staff time and time of the County Commission. However, these costs to the county are very modest for the following reasons. First, the review of this petition to amend the boundaries of the District does not include an analysis of the development itself. Second, the petition itself provides much of the information needed for a staff review. Third, local governments already possess the staff needed to conduct the review without the need for new staff. Fourth, no capital costs are involved in the review. Finally, local governments routinely processes similar petitions for land use and zoning changes that are far more complex than is the petition to amend the boundaries of the District. Finally, the filing fee will offset these costs.

There are no annual costs to the County if the petition is approved. The District already exists, and the proposed boundary change will not affect County costs in any way.

3.2 Impact on State and Local Revenues

Adoption of the proposed ordinance will have no negative impact on State or local revenues. The District is an independent unit of local government. It is designed to provide community facilities and services to serve the development. It has its own sources of revenue. No State or local subsidies are required or expected. The District already exists, and it has performed well with no impact on State or local revenues.

In this regard it is important to note that any debt obligations incurred by the District to construct its infrastructure, or for any other reason, are not debts of the State of Florida or any unit of local government. By State law debts of the District are strictly its own responsibility.

Real estate markets are quite efficient, because buyers and renters evaluate all of the costs and benefits associated with various alternative locations. Therefore, market forces preclude developers from marking up the prices of their products beyond what the competition allows. To remain competitive the operations and maintenance charges must also be in line with the competition.

Furthermore, locating in the District by new residents is completely voluntary. So, ultimately, all owners and users of the affected property choose to accept the District's costs in tradeoff for the benefits that the District provides.

The District is an alternative means to finance necessary community services. District financing is no more expensive, and often less expensive, than the alternatives of a municipal service taxing unit (MSTU), a neighborhood association, County provision (directly or via a dependent special district), or through developer-bank loans.

5.0 An analysis of the impact on small businesses as defined by Section 288.703, F.S., and an analysis of the impact on small counties and small cities as defined by Section 120.52, F.S.

There will be no impact on small businesses because of the formation of the proposed District. If anything, the impact may be positive. This is because the District must competitively bid certain of its contracts. This affords small businesses the opportunity to bid on District work.

Chapter 120.52, F.S. defines a small county or small city on the basis of their unincorporated population according to the most recently decennial census (in this case for 2000). The threshold for a small county is 75,000 and for a small city is 10,000.

The Annexation Parcel is located in Lake County. According to the latest Census date, the 2000 Census, the County has a population in excess of 100,000. Therefore, the proposed Annexation Parcel and the District are not located in a County defined as "small" according to Section 120.52, F.S.

6.0 Any additional useful information.

The analysis provided above is based on a straightforward application of economic theory, especially as it relates to tracking the incidence of regulatory costs and benefits. Inputs were received from the Developer's Engineer and other professionals associated with the Developer.

We have developed over 50 SERCs. Below is a listing of some of these.
