DISCOVER DECEMBER - Notes & Notables

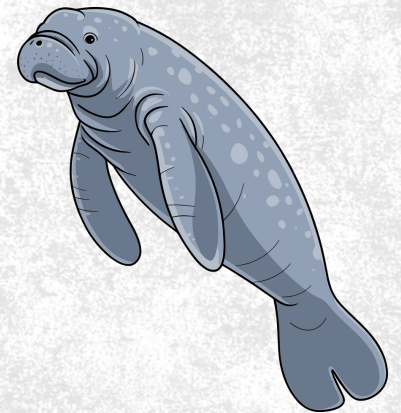

December ushers in the heart of winter, a month filled with seasonal traditions, community gatherings, and a rich place in history. For many, it represents a time of celebration- neighbors connecting at holiday events, families enjoying cozy evenings, and communities honoring [meaningful observances](#).

In The Villages, that spirit continues with holiday festivities, neighborhood socials, and seasonal celebrations- reminding us, like the gentle manatees in nearby waters, to slow down and enjoy the season together.

REWORLD: Waste-to-Energy Impact Update

From October 1, 2024, through September 30, 2025, Reworld processed 47,198 tons of solid waste for the North Sumter County Utility Dependent District (NSCUDD).

This Waste-to-Energy approach provides several important environmental benefits for our community:

- **Reduced Greenhouse Gases:**
 - Helps avoid 113,275 tons of CO₂-equivalent emissions.
- **Renewable Energy Production:**
 - Generates 25,958,900 kWh of renewable energy—enough to power approximately 29,069 homes for one month.
- **Lower Dependence on Fossil Fuels:**
 - Reduces the need for 15,733 tons of coal or 1,982,316 gallons of fuel oil.
- **Increased Recycling:**
 - Diverts 2,359,900 pounds of metal from landfills by recovering it for recycling.

These results are based on national averages and assume the waste composition is similar to typical municipal solid waste.
