Smoke Detector Batteries Up-To-Date?

Don't Wait!
Check The
Date!

DID YOU KNOW?

- You should change the batteries every year?
- You should replace the detector if they are 10 years or older?
- The Villages Public Safety Department has a program where **WE** will come out and provide this service for you?

HOW THE PROGRAM WORKS

BATTERY CHANGE - After you have purchased fresh, new batteries, call The Villages Public Safety Department at 352-205-8280 (Monday - Friday between 8am and 4:30pm) to schedule a technician to come out that day. Since we cannot schedule exact times, you will need to be available from the time you call until we arrive.

DETECTOR REPLACEMENT - After you have purchased the new detector, call The Villages Public Safety Department at 352-205-8280 (Monday - Friday between 8am and 4:30pm) to schedule a technician to come out that day. Since we cannot schedule exact times, you will need to be available from the time you call until we arrive.

NOT SURE IF YOU NEED NEW DETECTORS OR WHAT TO PURCHASE? Give us a call and we will send out a technician to check your equipment. If they are expired, we will recommend to you what needs to be replaced. We will provide you with make, model, quantity and where to purchase. Once purchased you can call us to schedule our technician to come out and install the new units.

For more information or to schedule an appointment: 352-205-8280
