District approval may be via an Architectural Review Committee (ARC) created by District resolution or inter-local agreement in furtherance of the architectural review process.

It is the property owner’s responsibility to obtain all necessary permits, governmental approvals and maintain compliance with all governmental laws, water management district plans, and private restrictions, including but not limited to: Building regulations, zoning regulations, plat requirements, permitting and declaration of restrictions (collectively, the “Laws”).

- Landscape lighting shall be limited to the immediate areas of the home's foundation, landscaping beds, pathways, and driveways.
- Notwithstanding the foregoing, low-voltage landscape lighting used solely to illuminate trees or architectural features of the home may be directed upward, provided such lighting is of low intensity, properly shielded where practicable, and does not create glare, light trespass, or nuisance conditions affecting adjacent properties or common areas. This provision shall not affect the separate standards governing low-voltage flagpole lighting.
- Hot, electric, neon, or excessively bright colored lighting is not permitted.
- Lighting shall not be installed along property lines, on walls, fences, or in a manner that would encroach upon neighboring properties or easements.
- The quantity and placement of landscape lighting shall be reasonable and consistent with the size of the homesite / lot.

Lawn Ornaments

Lawn ornaments, or yard art, generally refers to manmade items decorative objects used to make a yard more attractive, and which are located anywhere outside the structure or footprint of the home. However, pots and planters designed and constructed for plant use are permitted so long as they are used for their intended purpose. The inclusion or attachment of flowers or plants to a man-made ornament, not originally constructed for plant use, does not change the item from a lawn ornament to landscaping. The word 'lawn' includes areas that are mulched, concreted, sodded, rocked, landscaped, bare earth, or any other material outside the structure (footprint) of the home. The following is intended as a partial reference list of lawn ornaments: any man-made concrete or ceramic statue or figure (including religious symbols), wind chimes, plastic or silk flowers, windmill, pinwheels, train sets, deer, geese, flamingos, or any other animal or human figures. Residents may check with the Community Standards Department prior to purchase of lawn ornamentation/ landscape objects.

Landscaping maintenance requires following generally accepted garden-management practices to promote a healthy, weed-free environment for optimal plant growth. Mowing requirements include weed removal.

Homes and lots are expected to be kept free of external unused items, junk, construction material, and other debris. Lawns must be kept free from landscaping debris including fallen palm fronds, tree limbs, shrubbery or hedge clippings, and any other landscape vegetation not originally planted by the developer or homeowner.

Specific Maintenance Standards

1. Mowing, Weeding and Edging Requirements

- Standard: Mowing requirements include weed removal. Grass is considered overgrown when it reaches 8 inches in height.

- Standard: Properties must maintain clean exterior surfaces including homes, driveways, walkways, fences, and walls. Home siding must be kept clean from algae/mold growth and vine growth.

3. Hedge and Shrubby Requirements

Please review your deed restrictions for required hedge height requirements for your Unit.

Nuisance Definition

Nuisance means any use of exterior/landscape lighting on a property that unreasonably interferes with the use and enjoyment of neighboring properties or adversely affects the public health, safety, or welfare. Exterior/landscape lighting constitutes a nuisance when it produces excessive glare, brightness, or light trespass beyond the boundaries of the property, such that it causes discomfort, distraction, or loss of visibility to adjoining property owners, occupants, or motorists. A nuisance may be found where lighting is improperly directed, unshielded, or of such intensity or duration that it disrupts normal nighttime use of adjacent properties, intrudes into residential dwellings, or alters the character of the surrounding area beyond what is reasonable under the circumstances.
